What is SHPE?

Mission

SHPE Changes lives by empowering the Hispanic community to realize its fullest potential and to impact the world through STEM awareness, access, support, and development.

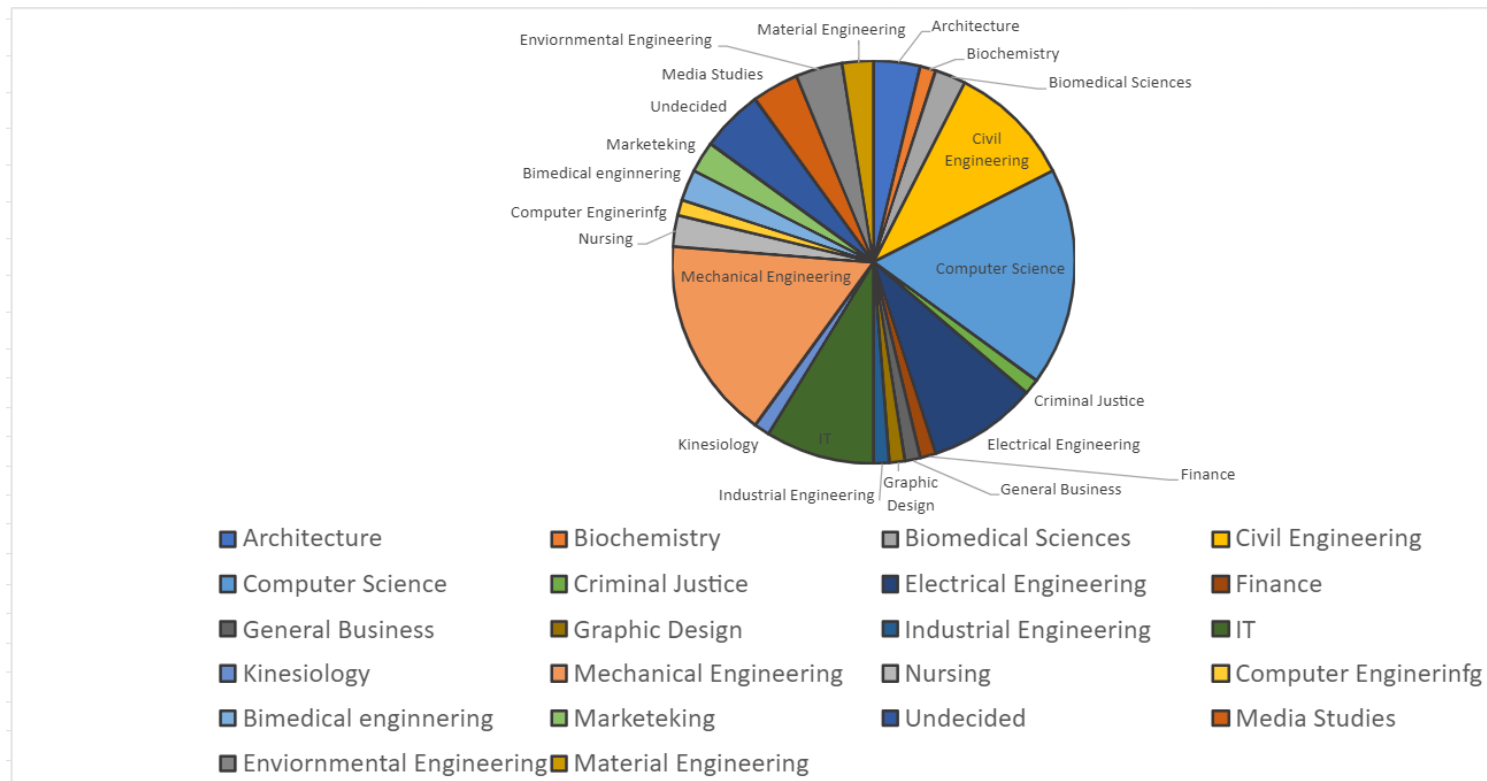

Vision

SHPE's vision is a world where Hispanics are highly valued and influential as the leading innovators, scientists, mathematicians, and engineers.

Values

- Familia: We take responsibility for our collective strength and passion by developing communities, building a diverse and inclusive membership, and challenging each other to be our best.
- Service: We act on a foundation of service. We commit to delivering the highest levels of quality, integrity, and ethical behavior. We act with empathy, patience, and understanding.
- Education: We value formal education and professional development. We are dedicated to continuous improvement and renewal. We learn from successes, setbacks, and each other.
- Resilience: We embrace our diverse cultures and communities, which enable us to adapt, thrive, and persist with optimism.

Our Members

Our Efforts

Professional Development

As we have gained experience, we have had the opportunity to learn what the crucial building blocks of being in this organization are. Professional development is key to all students continuing their college education. From the sciences to the humanities, building a personal brand is crucial to success. Here at the Society of Hispanic Professional Engineers, we provide a variety of opportunities throughout the school year targeted at building confidence, expanding professional networks, and practicing “soft” skills. Making sure that our members are well prepared for potential career growth opportunities is vital to our mission. We host Resume Workshops, Interview Bootcamps, Guest Speakers, and Internship fairs. Through our programming, we hope to support and uplift our student community in Milwaukee.

Volunteering

The mission of the Society of Hispanic Professional Engineers is to be able to change lives by empowering the Hispanic community to help them realize their fullest potential. The members of SHPE have been able to actively partake in bringing this mission to life. We have hosted our own events to provide STEM awareness, access, support, and development to our student members.

Additionally, in the past, our members have volunteered for several events and organizations to support our community and promote our mission. These include:

- Mexican Fiesta
- HPGM
- Prospanica
- Roberto Hernandez Center
- Salvation Army
- Church
- Habitat for Humanity
- Discovery World

Future Goals

The future goal of the Society of Hispanic Professional Engineers is to bring more Hispanic students into the fields of STEM (Science, Technology, Engineering, and Mathematics). This will allow students to develop technical and critical thinking skills. Through our efforts, we hope to provide infrastructure and technical fundamentals to our students to succeed in their future endeavors. Our short-term goals are to give back to the community, increase the number of members, and connecting with corporate partners to provide valuable experience to our members. Another meaningful goal is to provide a more personalized experience for young Latinx women in the pursuit of STEM careers. We want to make it clear that here at SHPE, women are valued with the highest integrity and are needed in the field of STEM. SHPE allows Hispanic students broad opportunities that can impact their future in a positive way.
